9-1-1 Outages/Remote/Community Isolations

- None reported.

Service Interruptions

- None reported.

WEATHER OF CONCERN

NORTHERN CALIFORNIA

- Hazardous mountain travel expected this weekend. Be prepared for travel delays, slippery roads, and possible chain controls.
- A late season storm will bring Sierra snow through early Monday. Up to 1 foot of snow possible at pass levels.
- Today and tonight, isolated weak thunderstorms will be possible across eastern and northern portions of Trinity and Mendocino counties this evening.
 - Additional chances for isolated afternoon thunderstorms will exist throughout the week, particularly Monday and Wednesday afternoons.
- The southern portion of Sacramento Valley, northern San Joaquin Valley, and the eastern foothills still have a chance for thunderstorm activity this evening.
- Gusty winds will make driving difficult in Central California.
- A few strong thunderstorms are possible in Central California this evening.

SOUTHERN CALIFORNIA

- An unusual cold upper level low pressure system will continue to bring showers to southwestern California through this evening, with a slight chance of thunderstorms across interior sections.
- An unusually late season cold storm system will likely bring snow showers and a slight chance of thundersnow to the local mountains through this evening.
- Strong winds will impact travelers in the Mountains and Deserts this afternoon and evening. Blowing sand will reduce visibilities at times.

WEATHER KEY POINTS

05/26/19 - 06/01/19

Sunday-Monday

- Another storm system will move through the state.
 - Brief moderate to heavy rainfall is possible with any thunderstorms that form, but debris flows are not likely.
 - Accumulating snows of 6-12 inches above 6,000-6,500 feet in the Sierra will create travel impacts to Sierra passes.
 - Precipitation will also occur across southern Inland region and Southern region Sunday into Sunday night.
 - Rainfall amounts in the San Bernardino and Riverside County Mountains could reach 0.5-1.0 inch, with localized amounts reaching 1-2 inches.
 - Rainfall rates expected to remain below 0.5 inch per hour at this time.
 - Snow levels in the San Bernardino and Riverside County Mountains will fall to around 5,500 feet by Sunday evening, with a few inches of snow possible.
 - Gusty winds across much of the central and southern portions of the state will impact travel and may cause localized areas of downed trees and power lines.

Tuesday-Saturday

- Trending drier across much of the state outside of a chance of showers and thunderstorms over the Sierra each day.

CALIFORNIA WEATHER IMPACTS

05/26/19 - 06/01/19
